

## Poster

### 2016

1. Fischer J, Irrgang A, Schmogger S, Kaesbohrer A-M. Occurrence of ESBL-, AmpC- and carbapenemase encoding genes in *E. coli* isolates from animal derived food-products in Germany. (Poster P0647). 26th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Amsterdam, Netherlands; 2016.
2. Irrgang A, Fischer J, Schmogger S, Guerra B, Kaesbohrer A-M. Molecular characterization of CTX-M-15 producing isolates from food in Germany. (Poster P0642). 26th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Amsterdam, Netherlands; 2016.
3. Leistner R, Gastmeier P, Denkel L. Infection incidence after colonization with multidrug resistant Gram-negative organisms. (Poster P1036). 26th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Amsterdam, Netherlands; 2016.
4. Pietsch M, Eller C, Falgenhauer L, Leistner R, Valenza G, Wendt C, Werner G, Pfeifer Y. Comparison of extended-spectrum beta-lactamase (ESBL)-producing *Escherichia coli* isolates from hospitals, ambulatory settings and the community. (Poster: PO17). International Meeting on Microbial Epidemiological Markers (IMMEM XI). Estoril, Portugal; 2016a.
5. Pietsch M, Pfeifer Y, Werner G. Investigations on bacterial fitness of *Escherichia coli* with plasmid mediated beta-lactam resistance. (Poster: PO032). International Meeting on Microbial Epidemiological Markers (IMMEM XI). Estoril, Portugal; 2016b.
6. Pietsch M, Irrgang A, Roschanski N, Brenner Michael G, Rieber H, Käsbohrer A, Schwarz S, Rösler U, Pfeifer Y, Werner G. Characterization of plasmid-mediated beta-lactamase CMY-2 in *Escherichia coli* from human and animal origin in Germany. (Poster). National Symposium on Zoonoses Research. Berlin, Germany; 2016. 149 p.
7. Roschanski N, Pietsch M, Pfeifer Y, Fischer J, Kreienbrock L, Rösler U. Occurrence of *bla*<sub>VIM1</sub> containing *Escherichia coli* and *Salmonella* deriving from dust-samples isolated in German chicken-fattening farms. (Poster). National Symposium on Zoonoses Research. Berlin, Germany; 2016. 135 p.

### 2015

8. Brenner Michael G, Kadlec K, Kaspar H, Schwarz S. Detection of ESBL-carrying multi-resistance plasmids in clinical *Escherichia coli* isolates from food-producing animals. (Poster 0955). 25th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Copenhagen, Denmark; 2015a. 160 p.
9. Brenner Michael G, Kadlec K, Kaspar H, Schwarz S. Plasmid-Encoded Multi-Resistance in ESBL-producing *Escherichia coli* isolates from diseased food-producing animals. (Poster). 6th Symposium on Antimicrobial Resistance in Animals and the Environment (ARAE). Tours, France; 2015b.
10. Brenner Michael G, Siqueira AK, Fischer J, Kadlec K, Guerra B, Kaspar H, Kreienbrock L, Rösler U, Schwarz S. Detection of virulence genes in multi-resistant CTX-M-14-producing *Escherichia coli* isolates from cattle. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2015c. 126 p.

11. Dähre K, Projahn M, von Tippelskirchen P, Orquera S, Alter T, Rösler U, Friese A. Occurrence of ESBL-/AmpC-producing *Enterobacteriaceae* along the broiler production chain. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2015. 123 p.
12. Fetsch A, Thoens C, Kelner-Burgos Y, Käsbohrer A. Does cross-contamination with ESBL *E. coli* occur during handling of food in household kitchens? (Poster). 6th Symposium on Antimicrobial Resistance in Animals and the Environment (ARAE). Tours, France; 2015.
13. Ghosh H, Falgenhauer L, Bunk B, Schmiedel J, Gentil K, Yao Y, Spröer C, Imirzalioglu C, Overmann J, Chakraborty T. Comparative Genomics of *E. coli* ST131 from humans and animals: a possible zoonotic transmission. (Poster). DZIF Annual Meeting. Munich, Germany; 2015a.
14. Ghosh H, Falgenhauer L, Schmiedel J, Fritzenwanker M, Yao Y, Chakraborty T, Imirzalioglu C. Characterization of extended-spectrum beta-lactamase-producing *Escherichia coli* sequence type 131 (ST131) from human and companion animal origin in Germany. (Poster: P0957). 25rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Copenhagen, Denmark; 2015b.
15. Ghosh H, Falgenhauer L, Schmiedel J, Gentil K, Fritzenwanker M, Yao Y, Imirzalioglu C, Chakraborty T. Molecular Characterization of extended-spectrum beta-lactamase producing *E. coli* sequence Type 131 (ST131) from human and companion animal origin in Germany. (Poster). 8th annual conference GGL. Giessen, Germany; 2015c.
16. Hering J, Frömke C, Hille K, Friese A, Von Münchhausen C, Rösler U, Kreienbrock L. ESBL-producing *E. coli* in cattle farms – A cross-sectional study in Germany. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2015. 106 p.
17. Hille K, Hering J, Friese A, Fischer J, Guerra B, Rösler U, Kreienbrock L. Positive predictive value of isolation of potentially ESBL-producing *Escherichia coli* on MacConkey agar containing 1 mg/l cefotaxime. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2015a. 122 p.
18. Hille K, Kreienbrock L. Systematic review of observational studies on ESBL-producing *E. coli* in pigs. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2015b. 125 p.
19. Pfeifer Y, Schielke A, Pietsch M, Blank HP, Kepper U, Fried-Proell W, Wendt C, Kaase M, Werner G. Consecutive analyses of colonized patients involved in an outbreak with KPC-2 producing *Enterobacteriaceae* in a German hospital. (Poster: 170/MSP). Jahrestagung der Deutschen Gesellschaft für Hygiene und Mikrobiologie (DGHM); 2015.
20. Pietsch M, Eller C, Pfeifer Y, Falgenhauer L, Leistner R, Valenza G, Wendt C, Werner G. Comparison of extended-spectrum beta-lactamase (ESBL)-producing *Escherichia coli* isolates from hospitals, ambulatory settings and the community. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2015. 121 p.
21. Plaza-Rodríguez C, Sharp H, Rösler U, Friese A, Käsbohrer A. Development of a model for the spread of ESBL/AmpC *E. coli* in broiler production. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2015. 104 p.
22. Schielke A, Pfeifer Y, Pietsch M, Blank HP, Kepper U, Fried-Proell W, Wendt C, Kaase M, Werner G, Abu Sin M. Consecutive analyses of colonized patients involved in an outbreak with KPC-2 producing *Enterobacteriaceae* in a German hospital. (Poster: EP066). 25rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Copenhagen, Denmark; 2015.

## 2014

23. Beyer A, Stahl J, Scherz G, Rösler U, Friese A, von Bergen M, Baumann S, Glünder G, Kietzmann M, Honscha S. Modification of bacterial resistance of *E.coli* due to the treatment of pigs with ceftiofur. (Poster). 80th annual DGPT meeting: Hannover, Germany; 2014.
24. Brenner Michael G, Kadlec K, Kaspar H, Schwarz S. Characterization of IncN plasmids carrying the *bla*<sub>CTX-M-1</sub> extended-spectrum  $\beta$ -lactamase gene among clinical *Escherichia coli* isolates collected from cattle and swine. (Poster). Deutsche Veterinärmedizinische Gesellschaft - Fachtagung der Fachgruppe Bakteriologie und Mykologie. Freising, Germany; 2014a.
25. Brenner Michael G, Kadlec K, Kaspar H, Schwarz S. Detection of ESBL-carrying multi-resistance plas-mids in clinical *Escherichia coli* isolates from food-producing animals. (Poster). 24th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Barcelona, Spain; 2014b. 227 p.
26. Brenner Michael G, Kadlec K, Kaspar H, Schwarz S. Distribution of IncN plasmids carrying *bla*<sub>CTX-M-1</sub> and co-located resistance genes in *Escherichia coli* isolates collected from diseased animals. (Poster). 7<sup>th</sup> Conference on Antimicrobial Agents in Veterinary Medicine (AAVM). Berlin, Germany; 2014c. 97 p.
27. Brenner Michael G, Kadlec K, Kaspar H, Schwarz S. Investigation of IncN plasmids encoding CTX-M-1 extended-spectrum  $\beta$ -lactamase among bovine and swine *Escherichia coli* isolates collected from diseased animals. (Poster). 24th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Barcelona, Spain; 2014d.
28. Falgenhauer L, Ghosh H, Guerra B, Yao Y, Fritzenwanker M, Fischer J, Helmuth R, Imirzalioglu C, Chakraborty T. Charcterization of two VIM-1 carbapenemase- IncHI2 plasmids recovered from *Escherichia coli* and *Salmonella* isolates from a pig farm in Germany. (Poster). Joint Conference - German Symposium on Zoonoses Research and 7th International Conference on Emerging Zoonoses, 16.-17.09.2014. Berlin; 2014. 268 p.
29. Fischer J, Alonso N, Baumann B, Jahn S, Schmogger S, Thomas K, Kreienbrock L, Roesler U, Appel B, Kaesbohrer A-M, Helmuth R, Guerra B. Comparative analysis of CTX-M-1 producing *E. coli* and associated plasmids originating from German livestock farms. (Poster). 24th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Barcelona, Spain; 2014.
30. Ghosh H, Falgenhauer L, Fritzenwanker M, Yao Y, Imirzalioglu C, Chakraborty T. Whole genome comparison of *Escherichia coli* sequence type 131 (ST131) from human and animal origon a possible zoonotic transmission of an emerging multidrug-resistant pathogen in Germany. (Poster). Joint Conference - German Symposium on Zoonoses Research and 7th International Conference on Emerging Zoonoses, 16.-17.09.2014. Berlin; 2014. 171 p.
31. Hasman H, Cavaco L, Svendsen C, Nielsen H, San José M, Fischer J, Schmogger S, Jahn S, Guerra B, Agersø Y. Validation of methods for enrichment of ESBL and AmpC producing *E. coli* in meat and cecal samples. (Poster No: P0995). 25th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Copenhagen, Denmark; 2014a.
32. Hasman H, Cavaco L, Svendsen C, Nielsen H, San José M, Fischer J, Schmogger S, Knitter L, Agersø Y, Perán R, Guerra B. Evaluation of methods for enrichment of carbapenemase producing *E. coli* in pork meat and cecal samples of porcine and bovine origin. (Poster Nr.: EV0266). 25th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Copenhagen, Denmark; 2014b.
33. Käsbohrer A, Sharp H, Valentin L, Fischer J, Appel B, Guerra B. Abschätzung der Bedeutung verschie-dener Infektionsquellen für ESBL - bildende *E. coli*. (Poster). Tagung der DVG-Fachgruppe "Bakteriologie und Mykologie". Freising, Germany; 2014a.

34. Käsbohrer A, Sharp H, Valentin L, Fischer J, Appel B, Guerra B. Abschätzung der Bedeutung verschiedener Infektionsquellen für ESBL – bildende *E. coli*. (Poster). Tagung der DVG-Fachgruppe "Bakteriologie und Mykologie". Gießen, Germany; 2014b.
35. Leistner R, Geffers C, Breier A-C. Heterogeneous regional distribution of nosocomial infections due to ESBL-producing *Enterobacteriaceae* in Germany: Data from the German National Reference Center for the Surveillance of Nosocomial Infections (KISS). (Poster). IDWeek 2014 Meeting of the Infectious Diseases Society of America. Philadelphia, USA; 2014.
36. Li T, Roschanski N, Laube H, Friese A, Rösler U. Occurrence of disinfectant resistance at ESBL- / AmpC-producing *E. coli* isolates from chicken. (Poster). Joint Conference - German Symposium on Zoonoses Research and 7th International Conference on Emerging Zoonoses, 16.-17.09.2014. Berlin; 2014. 291 p.
37. Michael Brenner G, Kadlec K, Kaspar H, Schwarz S. Location of *bla*<sub>CTX-M-1</sub> and *qnrS1* genes on IncN plasmids from clinical *Escherichia coli* isolates collected from diseased animals. (Poster). Joint Conference - German Symposium on Zoonoses Research and 7th International Conference on Emerging Zoonoses, 16.-17.09.2014. Berlin; 2014. 258 p.
38. Roschanski N, Fischer J, Guerra B, Rösler U. Development of a multiplex real-time PCR for the rapid detection of the predominant  $\beta$ -lactamase genes CTX-M, SHV, TEM and the CIT-type AmpCs. (Poster). Conference on Antimicrobial Agents in Veterinary Medicine (AAVM). Berlin, Germany; 2014a.
39. Roschanski N, Fischer J, Guerra B, Rösler U. Development of a multiplex real-time PCR for the rapid detection of the predominant  $\beta$ -lactamase genes CTX-M, SHV, TEM and the CIT-type AmpCs. (Poster). Jahrestagung der Deutschen Gesellschaft für Hygiene und Mikrobiologie (DGHM). Dresden, Germany; 2014b.
40. Roschanski N, von Salviati C, Hering J, Friese A, Guerra B, Käsbohrer A, Kreienbrock L, Rösler U. Occurrence of carbapenemase producing *Enterobacteriaceae* (CPE) isolated from pig-fattening farms throughout Germany. (Poster). Joint Conference - German Symposium on Zoonoses Research and 7th International Conference on Emerging Zoonoses, 16.-17.09.2014. Berlin; 2014c. 310 p.
41. San José M, Hasman H, Fischer J, Agerso Y, Schmogger S, Jahn S, Thomas K, Guiral E, Helmuth R, Guerra B. Evaluation of methods for detection of VIM-1-carbapenemase-producing *Enterobacteriaceae* in bovine minced meat. (Poster). 25th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID), 10-13.06.2014. Barcelona, Spanien; 2014.
42. Scherz G, Stahl J, Glünder G, Kietzmann M. Effects of carry-over of subtherapeutic antimicrobial dosages on the susceptibility of commensal *E.coli*. (Poster). 80th annual DGPT meeting. Hannover, Germany; 2014.
43. Schmiedel J, Falgenhauer L, Domann E, Bauerfeind R, Prenger-Berninghoff E, Imirzalioglu C, Chakraborty T. Shared populations of ESBL-producing bacteria in humans and animals. (Poster). Joint Conference - German Symposium on Zoonoses Research and 7th International Conference on Emerging Zoonoses, 16.-17.09.2014. Berlin; 2014. 104 p.
44. Sharp H, Käsbohrer A. Modeling the exposure to ESBL-producing *E. coli* via the broiler meat chain. (Poster). Summer Conference Zoonoses. Brighton, GB; 2014a.
45. Sharp H, Valentin L, Fischer J, Helmuth R, Guerra-Roman B, Appel B. ESBL-producing *E. coli* from animal and human sources - what do they share? (Poster). Joint Conference German Symposium on Zoonoses Research 2014 and 7th International Conference on Emerging Zoonoses. Berlin, Germany; 2014b.

46. Valentin L, Sharp H, Appel B, Käsbohrer A. Source attribution of foodborne ESBL-*E. coli* using data from the RESET consortium. (Poster). Joint Conference - German Symposium on Zoonoses Research and 7th International Conference on Emerging Zoonoses, 16.-17.09.2014. Berlin, Germany; 2014. 118 p.

## 2013

47. Brenner-Michael G, Fischer J, Kaspar H, Kadlec K, Guerra B, Mankertz J, Schwarz S. Detection of *bla*<sub>CTX-M-14</sub>-carrying plasmids in *Escherichia coli* strains isolated from healthy and diseased cattle. (Poster). 23rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Berlin, Germany; 2013.
48. Brenner Michael G, Fischer J, Kaspar H, Kadlec K, Guerra B, Kreienbrock L, Rösler U, Mankertz J, Schwarz S. Characterization of plasmids encoding CTX-M-14 extended-spectrum  $\beta$ -lactamase (ESBL) detected in *Escherichia coli* isolates from healthy and diseased cattle. (Poster). National Symposium on Zoonoses Research. Berlin, Germany: National Research Platform for Zoonoses; 2013. 154 p.
49. Ehlers J, Mauermann U, Werckenthin C. Ergebnisse zum Vorkommen Betalaktam-resistenter *Escherichia coli* in der niedersächsischen Geflügelproduktionskette (Poster). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2013. 93 p.
50. Eller C, Leistner R, Wendt C, Guerra B, Fischer J, Werner G, Pfeifer Y. Emergence of extended-spectrum beta-lactamase (ESBL) CTX-M-8 in Germany. (Poster 1207). 23rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Berlin, Germany; 2013a.
51. Eller C, Pfeifer Y, Valenza G, Wendt C, Werner G. Extended-spectrum  $\beta$ -lactamases (ESBL) and (fluoro)quinolone resistance in *Escherichia coli* from hospitals, the ambulatory setting and the community. (Poster 1208). 23rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Berlin, Germany; 2013b.
52. Falgenhauer L, Schmiedel J, Chakraborty T, Imirzalioglu C. Molecular characterization and comparison of extended-spectrum beta-lactamases (ESBL)-conferring plasmids from *Enterobacteriaceae* from human, animal and environmental sources. (Poster). 23rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Berlin, Germany; 2013.
53. Fischer J, Rodríguez I, Alonso N, Baumann B, Jahn S, Schmoger S, Beutin L, Schroeter A, Kreienbrock L, Roesler U, Appel B, Käsbohrer A, Helmuth R, Guerra B. Prevalence and molecular characterisation of CTX-M-15 positive *Escherichia coli* and *Salmonella* isolates from food and livestock farms in Germany. (Poster). 23rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Berlin, Germany; 2013a.
54. Fischer J, Schmoger S, Baumann B, von Salviati C, Laube H, Friese A, Roesler U, Helmuth R, Guerra B. Carbapenemases are present in enterobacteria from non-domestic animals more frequently than we thought. (Poster). 23rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Berlin, Germany; 2013b.
55. Hörmansdorfer S, Schmid A, Messelhäuser U, Preikschat P, Käsbohrer A, Mansfeld R. Vorkommen von ESBL-bildenden *Escherichia coli* in bayerischen Rinderbeständen. (Poster). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2013. 94 p.

56. Janusch F, Scherz G, Mohring S, Hamscher G. Entwicklung einer Flüssig-Flüssig-Extraktionsmethode zur simultanen Bestimmung von Fluorchinolonen in Hühnerfaeces mittels HPLC-MS/MS. (Poster). 42. Deutscher Lebensmittelchemikertag. Braunschweig, Germany; 2013.
57. Kreienbrock L, Hille K. RESET ESBL und fluorchinolon-RESistenz in *Enterobacteriaceae*. (Poster). 5. TMF – Jahreskongress. Heidelberg, Germany; 2013.
58. Leistner R, Meyer E, Gürntke S, Kruse S, Sakellariou C, Gastmeier P, Schwab F. No increased Mortality due to ESBL (+) *Klebsiella pneumoniae* blood stream infection. (Poster). 23rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Berlin, Germany; 2013a.
59. Leistner R, Meyer E, Pfeifer Y, Eller C, Dem P, Gastmeier P, Schwab F. Socio-cultural background as risk factor for community-acquired extended-spectrum beta-lactamase (ESBL)-positive *Escherichia coli*. (Poster 1486). 23rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Berlin, Germany; 2013b.
60. Leistner R, Meyer E, Schwab F, Dem P, Pfeifer Y, Eller C, Gastmeier P. Acquisition of extended-spectrum beta-lactamase (ESBL) positive *E. coli* in the community: The impact of cultural background and diet. (Poster). ICPI 2013, International Consortium for Prevention and Infection Control. Geneva, Switzerland 2013c.
61. Michels I, Chowdhury F, Friese A, Rösler U, Freitag M, Grote M. Incorporation of antimicrobial agents into vegetable from manured soil and microbiological effects. (Poster). Umweltbundesamt "Pharmaceuticals in Soil, Sludge and Slurry". Dessau-Roßlau, Germany; 2013.
62. Roschanski N, Fischer J, Guerra B, Rösler U. Development of a multiplex real-time PCR for the rapid detection of the predominant  $\beta$ -lactamase genes CTX-M, SHV, TEM and the CIT-type AmpCs. (Poster). National Symposium on Research. Berlin, Germany: Nationale Forschungsplattform für Zoonosen; 2013. 141 p.
63. Scherz G, Stahl J, Glünder G, Schulz J, Hartung J, Kietzmann M. Effects of carry-over of subtherapeutic antibiotic dosages on the bacterial susceptibility in the intestinal flora of poultry. (Poster). XVIth International Congress on animal Hygiene (ISAH 2013). Nanjing, China; 2013.
64. Schmiedel J, Falgenhauer L, Bauerfeind R, Chakraborty T, Imirzalioglu C. Comparative molecular characterization of multi-resistant ESBL-producing Gram-negative *Enterobacteriaceae* from human and animal isolates. (Poster). Giessen Graduate Center for Life sciences Annual Meeting. Gießen, Germany; 2013.
65. Sharp H, Appel B, Käsbohrer A. Transmission of ESBL-producing *E. coli* via the broiler meat chain – a quantitative approach. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2013a.
66. Sharp H, Käsbohrer A. Eating ESBLs - Modeling the Exposure to ESBL-producing *E. coli* via the Broiler Meat Chain. (Poster). 5th Symposium on Antimicrobial Resistance in Animals and the Environment. Ghent, Belgium; 2013b.
67. Sharp H, Valentin, L. and Käsbohrer, A. Source attribution via microbial subtyping – a study towards a more practical approach. (Poster). MedVetNet Association International Scientific Conference 2013 - One health, one medicine: sharing challenges for combating zoonoses. Lyngby, Denmark; 2013.
68. Valentin L, Sharp H, Appel B, Käsbohrer A. Source attribution of foodborne ESBL-*E. coli* in Germany. (Poster). MedVetNet Association International Scientific Conference 2013 - One health, one medicine: sharing challenges for combating zoonoses. Lyngby, Denmark; 2013a.
69. Valentin L, Sharp H, Appel B, Käsbohrer A. Source attribution of foodborne ESBL-*E. coli* using data from the RESET consortium. (Poster). BfR-Symposium Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany; 2013b.

70. Vossenkuhl B, Sharp H, Brandt J, Fetsch A, Käsbohrer A, Tenhagen B-A. Modeling the transmission of livestock associated methicillin resistant *Staphylococcus aureus* along the pig slaughter line. (Poster). 3rd ASM-ESCMID Conference on Methicillin-resistant *Staphylococci* in Animal. Copenhagen, Denmark; 2013.

## 2012

71. Brenner Michael G, Kadlec K, Kaspar H, Schink A-K, Mankertz J, Cardoso M, Schwarz S. Investigation of plasmid-borne ESBL genes and co-located resistance genes in *Escherichia coli* strains from food-producing animals collected in the GERM-Vet program. (Poster). 3rd ASM Conference on Antimicrobial Resistance in Zoonotic Bacteria and Foodborne Pathogens in Animals, Humans, and the Environment. Aix-en-Provence, France; 2012a.
72. Brenner Michael G, Kadlec K, Kaspar H, Schink A-K, Mankertz J, Schwarz S. Detection of ESBL-carrying plasmids in *Escherichia coli* isolates collected in the GERM-Vet program. 64. 96. von Salviati C, Laube H, Guerra B, Käsbohrer A, Kreienbrock L, Friese A, Rösler U. Langzeituntersuchungen zur Prävalenz von Fluorochinolon-resistenten Enterobakterien in Schweinemast- und Broilerhaltungen sowie der Umgebung. (Poster). BMELV-Symposium "Verbraucherschutz in DART: Forschungserkenntnisse und –perspektiven zu Antibiotikaresistenzen". Berlin, Germany; 2012.

## 2011

97. Pfeifer Y, Trüpschuch S, Rabsch W, Prager R, Frick J-S, Witte W. Extended-Spectrum Cephalosporin Resistance and Production of Beta-Lactamases in *Salmonella* strains of different Serovars in Germany 2005-2010. (Poster 1351). 23rd European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Milan, Italy: Clinical Microbiology and Infection; 2011.
98. Schink A-K, Kadlec K, Schwarz S. Analysis of *qnr*<sub>B19</sub>-carrying plasmids from equine *Escherichia coli* isolates. (Poster). 4th Symposium on Antimicrobial Resistance in Animals and the Environment (ARAE) Tours, France; 2011.
99. Sharp H, Monteiro Pires S, Hald T, Valentin L, Käsbohrer A. Source attribution of human salmonellosis - Adjusting Danish methods to the German needs. (Poster). International Conference on Zoonoses. London, UK; 2011.
100. Valentin L, Sharp H, Alt K, Käsbohrer A. Source attribution - a German approach for *Salmonella* spp. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2011a.
101. Valentin L, Sharp H, Alt K, Käsbohrer A. Wer ist schuld? Source Attribution Methoden - des Rätsels Lösung? (Poster). DACH Epidemiologietagung "Moderne Epidemiologie - Quantitative Methoden in der Tierseuchenbekämpfung". Wien, Austria; 2011b.
102. von Salviati C, Laube H, Käsbohrer A, Kreienbrock L, Friese A, Rösler U. Long-term monitoring of ESBL-producing *E. coli* and Flouroquinolone resistance in animal farms and farm environment. (Poster). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2011. 171 p.

## 2010

103. Merle R, Kreienbrock L. ESBL and (fluoro)quinolone Resistance in *Enterobacteriaceae* - RESET research network. (Poster). National Symposium on Zoonoses Research. Berlin, Germany; 2010.

Vorträge

## 2016

1. Brenner Michael G, Siqueira AK, Kadlec K, Kaspar H, Schwarz S. Does size matter? - Transferability of extended-spectrum  $\beta$ -lactamase gene-carrying plasmids harboured by *Escherichia coli* isolates of diseased food-producing animals. (Talk). National Symposium on Zoonoses Research. Berlin, Germany; 2016. 63 p.
2. Brenner Michael G, Siqueira AK, Kadlec K, Schwarz S. Diversity of extended-spectrum betalactamase gene-carrying plasmids harboured by *Escherichia coli* isolates of diseased foodproducing animals. (Talk). 26th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Amsterdam, Netherlands; 2016.
3. Dähre K, Projahn M, Friese A, Rösler U. ESBL-/AmpC-producing Enterobacteriaceae in the broiler production chain. (Talk). National Symposium on Zoonoses Research. Berlin, Germany; 2016. 64 p.
4. Falgenhauer L, Waezsada S-E, Yao Y, Schmiedel J, Imirzalioglu C, Chakraborty T. Extended-spectrum beta-lactamase and carbapenemase encoding *Enterobacteriaceae* isolates harbouring the novel mcr-1 colistin resistance gene. (Talk). 26th European Congress of Clinical Microbiology and Infectious Diseases (ECCMID). Amsterdam, Netherlands; 2016.
5. Hille K, Seibt U, Honscha S, Kreienbrock L. The RESET-research database: A comprehensive collection of microbiological and epidemiological information on ESBL-producing bacterial strains from Germany. (Talk). National Symposium on Zoonoses Research. Berlin, Germany; 2016. 60 p.
6. Langenkämper G, Ibrahim Aroud H, Schwake-Anduschus C, Grote M, Scherz G, Stahl J, Mielke-Kuschow S, Kietzmann M. Enrofloxacin incorporated in white cabbage inhibits the growth of *Escherichia coli*. (Talk O5.4). 1st Food Chemistry Conference. Amsterdam, The Netherlands; 2016.
7. Projahn M, Dähre K, Tippelskirch Pv, Alter T, Friese A, Rösler U. Epidemiologie ESBL-/AmpC produzierender Enterobakterien in der Masthähnchen-Produktionskette. (Talk). DACH-Tagung der DVG-Fachgruppe Epidemiologie und Dokumentation. Jena, Germany; 2016. 57 p.
8. Projahn M, Dähre K, Tippelskirch Pv, Alter T, Friese A, Rösler U. Epidemiologie ESBL-/AmpC produzierender Enterobakterien in der Masthähnchen-Produktionskette. (Talk). Tagung der DVG-Fachgruppe Bakteriologie und Mycologie "Microbiologie in der Tiermedizin GESTERN - HEUTE - MORGEN". Jena, Germany; 2016.
9. Roschanski N, Friese A, Rösler U. Occurrence of the colistin resistance gene mcr-1 in *E. coli* isolated on German pig-fattening farms during the years 2011-2013. (Talk). Tagung der DVG-Fachgruppe Bakteriologie und Mycologie "Microbiologie in der Tiermedizin GESTERN - HEUTE - MORGEN". Jena, Germany; 2016.
10. Roschanski N, Thieck M, Hering J, Von Salvati C, Laube H, Grobbel L, Kreienbrock L, Rösler U. Retrospective analysis addressing the emergence of the plasmid encoded colistin resistance gene mcr-1 in German livestock farms during the years 2011-2013. (Talk). National Symposium on Zoonoses Research. Berlin, Germany; 2016. 61 p.

11. Von Tippelskirchen P, Gölz G, Orquera S, Projahn M, Dähre K, Friese A, Rösler U, Alter T. Prevalence of extended spectrum and AmpC  $\beta$ -lactamase producing Enterobacteriaceae in poultry during slaughter. (Talk). National Symposium on Zoonoses Research. Berlin, Germany; 2016. 62 p.

## 2015

12. Brenner Michael G, Kadlec K, Kaspar H, Schwarz S. Co-location of antimicrobial resistance genes on ESBL-carrying plasmids in clinical *Escherichia coli* isolates from food-producing animals. (Talk). 4th ASM Conference on Antimicrobial Resistance in Zoonotic Bacteria and Foodborne Pathogens. Washington DC, USA; 2015.
13. Burow E, Käsbohrer A. Zusammenhang zwischen Antibiotikagabe und weiteren Faktoren mit resistenten *E. coli* beim Schwein. (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2015. 77 p.
14. Dähre K, Projahn M, von Tippelskirchen P, Orquera S, Alter T, Friese A, Rösler U. Transmission of ESBL-/AmpC-producing Enterobacteriaceae along the entire production chain of broilers. (Talk). XVII International conference on animal hygiene. Košice, Slovakia; 2015. 92 p.
15. Feßler A, Kadlec K, Brenner Michael G, Schwarz S. Horizontaler Gentransfer und seine Bedeutung für die Resistenzausbreitung. (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2015. 43-5 p.
16. Fetsch A, Tenhagen B-A, Kelner-Burgos Y, Käsbohrer A. Küchenhygiene? Da war doch was! – Studien zur Kreuzkontamination mit MRSA und ESBL *E. coli* in Geflügelfleisch. (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2015a. 25 p.
17. Fetsch A, Tenhagen B-A, Thoens C, Kelner-Burgos Y, Käsbohrer A. Risk of cross-contamination with ESBL *E. coli* and MRSA during handling of fresh chicken meat in household kitchens. (Talk). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2015b. 52 p.
18. Käsbohrer A. Temporal trend in prevalence ESBL- and AmpC-producing *E. coli* in the broiler production chain in Germany. (Talk). 6th Symposium on Antimicrobial Resistance in Animals and the Environment (ARAE). Tours, France; 2015.
19. Käsbohrer A, Tenhagen B-A. ESBLs beim Geflügel - welche Bedeutung hat dies für den gesundheitlichen Verbraucherschutz? (Talk). DLG-Geflügeltagung. Celle, Germany; 2015a.
20. Käsbohrer A, Valentin L, Jabin H. Resistente Keime in der Tierhaltung: wie groß ist ihr Beitrag zur Kolonisation des Menschen? (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2015b. 47 p.
21. Li T, Roschanski N, Friese A, Rösler U. Occurrence of decreased disinfectant susceptibility among ESBL-/AmpC-producing *E. coli* isolated from broiler. (Talk). XVII International conference on animal hygiene. Košice, Slovakia; 2015. 91 p.

22. Pfeifer Y. ESBL-, AmpC- und Carbapenemase-bildende Keime beim Menschen. (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2015. 59-61 p.
23. Projahn M, Dähre K, von Tippelskirchen P, Orquera S, Alter T, Rösler U. Epidemiological relationship of ESBL-/AmpC-producing *Enterobacteriaceae* in the broiler production chain. (Talk). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2015. 57 p.
24. Roschanski N, Fischer J, Friese A, Käsbohrer A, Kreienbrock L, Pfeifer Y, Guerra B, Rösler U. Untersuchungen zum Vorkommen Carbapenem-resistenter Enterobakterien in deutschen Nutztierhaltungen und deren molekularbiologische Charakterisierung. (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2015a. 49-50 p.
25. Roschanski N, Friese A, Käsbohrer A, Kreienbrock L, Rösler U. Occurrence of carbapenem resistant and carbapenemase producing *Enterobacteriaceae* (CPE) isolated on German pig-fattening farms. (Talk). XVII International conference on animal hygiene. Košice, Slovakia; 2015b. 82 p.
26. Rösler U, Projahn M, Dähre K, von Tippelskirch P, Alter T, Friese A. Eintrag resistenter Keime in die Geflügelhaltung – vertikal oder horizontal? (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2015. 19 p.
27. Schmiedel J, Imirzalioglu C, Windhorst A, Ghosh H, Falgenhauer L, Chakraborty T. Development of a virulence gene scoring system for ESBL isolates - Delineation of a novel disease associated subgroup. (Talk). DZIF Annual Meeting. Munich, Germany; 2015.
28. von Tippelskirchen P, Orquera S, Projahn M, Dähre K, Friese A, Rösler U, Alter T. Prävalenz von Extended-Spectrum  $\beta$ -Lactamase und AmpC- $\beta$ -Lactamase-bildenden *Enterobacteriaceae* in der Geflügelkette. (Talk). 56. Arbeitstagung des Arbeitsgebietes Lebensmittelhygiene der DVG. Garmisch-Partenkirchen, Germany; 2015. 52 p.

## 2014

29. Chakraborty T. Genombasierte Charakterisierung und Epidemiologie Multiresistenz vermittelnder Plasmide aus Tier und Mensch. (Talk). Seminar Veterinary Public Health. Hannover, Germany; 2014. 12 p.
30. Frömke C, Hering J, Hille K, von Münchhausen C, Kreienbrock L. Hierarchien und Zählraten: Erfahrung mit unterschiedlichen Modellierungsstrategien in einer epidemiologischen Querschnittsstudie. (Talk). 60. Biometrisches Kolloquium der Deutschen Region der Internationalen Biometrischen Gesellschaft. Bremen, Germany; 2014.
31. Hille K, Hering J, Friese A, Frömke C, von Münchhausen C, Rösler U, Kreienbrock L. Auftreten von ESBL-Resistenzen in der Tierhaltung in Deutschland. (Talk). Seminar Veterinary Public Health. Hannover, Germany; 2014. 22 p.
32. Käsbohrer A. Classification of ESBL-producing *E. coli* from animal and human sources by phenotypic and genotypic methods to compare ESBL types from different reservoirs. (Talk). 7<sup>th</sup> Conference on Antimicrobial Agents in Veterinary Medicine (AAVM). Berlin, Germany; 2014a.

33. Käsbohrer A. Source attribution of ESBL-producing E. coli – what is the contribution of livestock to the public health risk? A German perspective. (Talk). Summer Conference Zoonoses. Brighton, GB; 2014b.
34. Käsbohrer A, Sharp H, Valentin L, Fischer J, Appel B, Guerra B. ESBL - derzeitiger Stand einer Risikobewertung. (Talk). Seminar Veterinary Public Health - ESBL: eine neue Gefahr oder ein aktueller Name für alte Probleme? Hannover, Germany; 2014. 42 p.
35. Kietzmann M, Stahl J, Scherz G, Beyer A, Honscha W. Resistenzentstehung und -ausbreitung bei sachgerechter Anwendung. (Talk). Seminar Veterinary Public Health. Hannover, Germany; 2014. 25 p.
36. Roschanski N, von Salviati C, Hering J, Friese A, Guerra B, Käsbohrer A, Kreienbrock L, Rösler U. Occurrence of Carbapenemase producing Enterobacteriaceae (CPE) isolated from pig-fattening farms throughout Germany. (Talk). 7<sup>th</sup> Conference on Antimicrobial Agents in Veterinary Medicine (AAVM). Berlin, Germany; 2014.
37. Rösler U. Gefährdung durch Ausbreitung von multiresistenten Erregern innerhalb und außerhalb von Tierhaltungen und entsprechende Handlungsoptionen. (Talk). Symposium "Ursachen und Gefahren einer Resistenzbildung gegen antibiotische Wirkstoffe und sich daraus ergebende Handlungsfelder in der Human- und Veterinärmedizin sowie der Tierhaltung" der Gemeinsamen Agrar- und Verbraucherschutzministerkonferenz. Berlin, Germany; 2014.
38. Rösler U, Laube H, von Salviati C, Friese A. ESBL in Deutschland: Eintrag und Austrag zwischen Nutztierhaltung und Umwelt. (Talk). Seminar Veterinary Public Health - ESBL: eine neue Gefahr oder ein aktueller Name für alte Probleme. Hannover, Germany: TiHo-Hannover; 2014. 23 p.
39. Schwarz S. Antibiotikaeinsatz in der Veterinärmedizin und Transfer resistenter Bakterien zwischen Tieren und Menschen. (Talk). IV. Symposium Krankenhaushygiene. Königstein-Falkenstein, Germany; 2014a.
40. Schwarz S. Antimicrobial susceptibility of bacteria - Methodology and applications. (Talk). University of Copenhagen. Copenhagen, Denmark; 2014b.
41. Schwarz S. Antimicrobial susceptibility testing of bacteria - Methodology and applications. (Talk). Chinese Agricultural University. Beijing, China; 2014c.
42. Schwarz S. Einsatz antimikrobieller Wirkstoffe in der landwirtschaftlichen Tierproduktion. (Talk). 1. Deutscher Kongress für praktische Krankenhaushygiene. Hamburg, Germany; 2014d.
43. Schwarz S. Entwicklung und Verbreitung von Antibiotikaresistenzen bei Bakterien von Tieren. (Talk). Gemeinsame Fortbildungsveranstaltung zur 16. Novelle des Arzneimittelgesetzes und zu Anti-biotikaresistenzen der TÄ-Kammer Sachsen-Anhalt. Bernburg (Saale), Germany; 2014e.
44. Schwarz S. Entwicklung von Antibiotika-Resistenzen. (Talk). 33. Internationaler Veterinärkongress - BpT Kongress. Bad Staffelstein, Germany; 2014f.
45. Schwarz S, Kadlec K, Brenner Michael G. Was versteht man unter Resistenz und ESBL ? Begriffsbestimmungen und Nachweismöglichkeiten im Labor. (Talk). Seminar Veterinary Public Health. Hannover, Germany; 2014. 6 p.
46. Sharp H, Käsbohrer A. Eating ESBLs – Modeling the exposure to ESBL-producing E. coli via the broiler meat chain. 2014. (Talk). Tagung der DVG-Fachgruppe "Epidemiologie und Dokumentation": „Tiergesundheit und Ökonomie“. Zurich, Switzerland; 2014a.

47. Sharp H, Valentin L, Hille K, Seibt U, Fischer J, Pfeifer Y, Brenner Michael G, Nickel S, Schmiedel J, Falgenhauer L, Friese A, Bauerfeind R, Rösler U, Imirzalioglu C, Chakraborty T, Helmuth R, Valenza G, Werner G, Schwarz S, Guerra-Roman B, Appel B, Kreienbrock L, Käsbohrer A. ESBL-producing *E. coli* from animal and human sources - What do they share? (Talk). Joint Conference - German Symposium on Zoonoses Research and 7th International Conference on Emerging Zoonoses, 16.-17.09.2014. Berlin, Germany; 2014b. 22 p.
48. Wöhrmann M, Schaufler K, Müller K, Semmler T, Leistner R, Kola A, Wieler LH, Guenther S. Clonality among ESBL-producing *E. coli* of sequence types (ST) 131, ST410 and ST167 isolated from human clinical and avian wildlife samples from the city of Berlin, Germany. (Talk). Joint Conference - German Symposium on Zoonoses Research and 7th International Conference on Emerging Zoonoses, 16.-17.09.2014. Berlin, Germany; 2014. 21 p.

## 2013

49. Fischer J, Rodríguez I, Schmoger S, Friese A, Roesler U, Helmuth R, Guerra B. Carbapenamases are present in *Enterobacteria* isolated from animals and the environment in livestock farms. (Talk). 65th Joint Annual Meeting of the German Society for Hygiene and Microbiology (DHGM). Rostock, Germany; 2013a.
50. Fischer J, Schmoger S, Jahn S, Baumann B, Helmuth R, Guerra B. An emerging problem: *Carbapenemases*-producing *Enterobacteria* from food-producing animals, their environment and wild birds. (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2013b. 49 p.
51. Friese A, Laube H, von Salviati C, Rösler U. Emissionen von ESBL/AmpC-bildenden Enterobakterien in das Umfeld von Tierhaltungen. (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2013. 42 p.
52. Frömke C, Hering J, Hille K, Kreienbrock L. Hierarchische Modellierung von Zählraten: Erfahrungen am Beispiel der RESET-Querschnittsstudie. (Talk). DACH-Tagung der DVG-Fachgruppe Epidemiologie und Dokumentation. Hannover, Germany; 2013.
53. Gastmeier P. ESBL-bildende Bakterien – eine Herausforderung für die Krankenhaushygiene (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2013. 40 p.
54. Guerra B. An emerging problem for public health: Carbapenamases-producing microorganisms are also present in food producing animals, their environment and wild birds. (Talk). 5th Symposium on Antimicrobial Resistance in Animals and the Environment. Ghent, Belgium; 2013a. 22 p.
55. Guerra B. ESBL-Nachweis. (Talk). NRLs-Symposium. Berlin, Germany: Bundesinstitut für Risikobewertung; 2013b.
56. Hering J, Hille K, Frömke C, Friese A, von Münchhausen C, Rösler U, Kreienbrock L. ESBL-producing *E. coli* in farm animals - a cross-sectional study in Germany. (Talk). National Symposium on Zoonoses Research. Berlin, Germany: National Research Platform for Zoonoses; 2013. 29 p.

57. Hille K, Hering J, Friese A, Frömke C, von Münchhausen C, Rösler U, Kreienbrock L. Prävalenz von ESBL in unterschiedlichen Tierpopulationen. (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2013a. 41 p.
58. Hille K, Hering J, Friese A, von Münchhausen C, Rösler U, Kreienbrock L. ESBL-producing *E. coli* in farm animals - A cross-sectional study in Germany. (Talk). Antimicrobial Resistance in Animals and the Environment ARAE. Ghent, Belgium; 2013b.
59. Janusch F, Kalthoff L, Mohring S, Hamscher G. Minimierung von Matrixeffekten in der LC-MS/MS Analyse von Fluorchinolonen in Blutplasma durch selektive Entfernung von Phospholipiden mittels Festphasenextraktion. (Talk). ANAKON. Essen, Germany; 2013.
60. Käsbohrer A, Schroeter A, Tenhagen B-A, Guerra-Roman B, Helmuth R, Appel B. Heterogeneity in antimicrobial resistance patterns in the food production chains and their linkage to antimicrobial usage. (Talk). 5th Symposium on Antimicrobial Resistance in Animals and the Environment. Ghent, Belgium; 2013a.
61. Käsbohrer A, Schroeter A, Tenhagen B-A, Guerra B, Helmuth R, Appel B. Heterogenität der Resistenzmuster von kommensalen *E. coli* in den verschiedenen Lebensmittelketten und ihr Zusammenhang mit dem Einsatz von Antibiotika. (Talk). Arbeitstagung des Arbeitsgebietes Lebensmittelhygiene der DVG. Garmisch-Partenkirchen, Germany; 2013b.
62. Käsbohrer A, Schroeter A, Tenhagen B-A, Stingl K, Weiser A, Helmuth R, Guerra-Roman B, Appel B. Monitoring von Resistenzen bei kommensalen Keimen und Zoonoseerregern – ein Überblick. (Talk). BfR-Symposium Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany; 2013c.
63. Käsbohrer A, Tenhagen B-A, Alt K, Szabo I, Helmuth R, Stingl K, Beutin L, Miko A, Kleta S, Fetsch A, Sharp H, Guerra-Roman B, Schroeter A, Appel B. 3 Jahre Zoonosen-Monitoring - Erkenntnisse für die Risikobewertung. (Talk). Fortbildung für den Öffentlichen Gesundheitsdienst (ÖGD). Berlin, Germany; 2013d.
64. Käsbohrer A, Tenhagen, B.-A., Valentin, L., Sharp, H. and Appel, B. Zeigt das *Salmonella*-Bekämpfungsprogramme bei Legehennen einen Nutzen für den gesundheitlichen Verbraucherschutz? (Talk). 54. Arbeitstagung des Arbeitsgebietes Lebensmittelhygiene der DVG. Garmisch-Partenkirchen, Germany; 2013.
65. Kietzmann M. Wirkstoffverschleppung im Nutztierbestand – Bedeutung für das Resistenzgeschehen (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2013. 81 p.
66. Laube H, Friese A, von Salvati C, Guerra B, Käsbohrer A, Rösler U. Emissions of ESBL/AmpC-producing *E. coli* from broiler and pig fattening farms in Germany. (Talk). 5th Symposium on Antimicrobial Resistance in animals and Environment. Ghent, Belgium; 2013. 50 p.
67. Leistner R. Mortalität bei Bakteriämie mit ESBL-positiven *Klebsiella pneumoniae*. (Talk). DGHM - Ständige Arbeitsgemeinschaft Allgemeine und Krankenhaushygiene, 17. Berliner Workshop. Berlin, Germany; 2013.
68. Pfeifer Y. ESBL-bildende *Enterobacteriaceae* als Infektionserreger beim Menschen und die Frage nach dem zoonotischen Reservoir. (Talk). 10. Ulmer Symposium für Krankenhausinfektionen. Ulm, Germany; 2013.
69. Pfeifer Y, Podschun R, Borgmann S, Blobner W, Ziegler R, Wendt C, Werner G, Kaase M. Molecular analysis of *Klebsiella oxytoca* isolates producing VIM-type metallo-beta-lactamases

- from Germany. (Talk). 65. Jahrestagung der Deutschen Gesellschaft für Hygiene und Mikrobiologie. Rostock, Germany; 2013.
70. Rösler U. MRSA und ESBL in der Nutztierpraxis: Situation und Lösungsansätze. (Talk). 7. Brandenburger Tierärztetag. Groß Dölln; 2013.
71. Rösler U, von Salviati C, Laube H, Friese A. Long-term Monitoring of ESBL-producing *E. coli* in Broiler and Pig Fattening Farms and in their Vicinity. (Talk). The 3rd Food safety and Zoonoses Symposium for Asia Pacific. Chiang Mai, Thailand: 10th year anniversary of Veterinary Public Health Centre for Asia Pacific; 2013. 22 p.
72. Scherz G, Stahl J, Glünder G, Kietzmann M. Einfluss subtherapeutischer Antibiotikakonzentrationen auf die Resistenzbildung beim Geflügel. (Talk). 85. Fachgespräch über Geflügelkrankheiten. Hannover, Germany: DVG; 2013. 11 p.
73. Sharp H, Valentin L, Käsbohrer A. Source Attribution von ESBL beim Menschen. (Talk). BfR-Symposium Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany; 2013.
74. Valentin L, Sharp H, Käsbohrer A. Source Attribution von ESBL beim Menschen. (Talk). BfR-Symposium - Antibiotikaresistenz in der Lebensmittelkette. Berlin, Germany: Bundesinstitut für Risikobewertung; 2013. 45 p.
75. von Salviati C, Friese A, Roschanski N, Laube H, Guerra-Roman B, Rösler U. ESBL-Emissionen von Broiler- und Mastschweinebetrieben. (Talk). DVG Vet-Congress. Berlin, Germany; 2013.

## 2012

76. Brenner Michael G, Kadlec K, Schink A-K, Kaspar H, Mankertz J, Cardoso M, Schwarz S. Identification of plasmid-borne ESBL genes in *Escherichia coli* strains isolated from diseased poultry and calves. (Talk). XXIV World's Poultry Congress. Salvador, Brazil; 2012.
77. Chakraborty T. ESBL: Ein neues Gesundheitsproblem? (Talk). BMELV-Symposium "Verbraucherschutz in DART: Forschungserkenntnisse und –perspektiven zu Antibiotikaresistenzen". Berlin, Germany: Bundesinstitut für Risikobewertung; 2012.
78. Fischer J, Rodríguez I, Schmogger S, Friese A, Roesler U, Helmuth R, Guerra B. VIM-1 carbapenemase carrying *Escherichia coli* and *Salmonella enterica* from livestock farms. (Talk). 3rd ASM Conference on Antimicrobial Resistance in Zoonotic Bacteria and Foodborne Pathogens in Animals, Humans, and the Environment. Aix-en-Provence, France; 2012a.
79. Fischer J, Rodríguez I, Schmogger S, Friese A, Roesler U, Helmuth R, Guerra B. VIM-1 carbapenemase carrying *Escherichia coli* and *Salmonella enterica* from livestock farms. (Talk). Nationales Symposium für Zoonosenforschung. Berlin, Germany: Nationale Forschungsplattform für Zoonosen; 2012b. 55 p.
80. Friese A. Multiresistant microorganisms in healthy livestock - a risk for humans? (Talk). Second German-Russian Week of Young Scientists "Health and Society". Yekaterinburg, Russia; 2012a.
81. Friese AvS, C.; Laube, H.; Schulz, J.; Hartung, J.; Rösler, U. Methicillinresistente *S. aureus* (MRSA) und Extended-spectrum Beta-Laktamase (ESBL)-bildende *E. coli* in Schweine und Geflügelmastbeständen. (Talk). 53. Arbeitstagung des Arbeitsgebiets Lebensmittelhygiene der Deutschen Veterinärmedizinischen Gesellschaft. Garmisch-Partenkirchen, Germany; 2012b.
82. Grote M, Chowdhury F, Meriç DH, Michels I, Schwake-Anduschus C, Langenkämper G, Sprenger C, Freitag M. Antibiotic Residues in Vegetables. (Talk). Antibiotics in the Food Chain – Max-Rubner- Conference 2012. Karlsruhe, Germany: Max Rubner Institut; 2012a. 13 p.

83. Grote M, Chowdhury F, Michels I, Stevens H, Meriç DH, Freitag M. Untersuchungen zur Aufnahme antibiotisch wirksamer Stoffe in Nutzpflanzen. (Talk). Verbraucherschutz in DART: Forschungserkenntnisse und –perspektiven zu Antibiotikaresistenzen. Berlin, Germany: Bundesinstitut für Risikobewertung; 2012b. 45 p.
84. Guerra B. *Escherichia coli* O104:H4 Outbreak strain did not only spread disease but CTX-M-15 extended spectrum  $\beta$ -lactamase as well. (Talk). 3rd ASM Conference on Antimicrobial Resistance in Zoonotic Bacteria and Foodborne Pathogens in Animals, Humans, and the Environment. Aix-en-Provence, France; 2012.
85. Guerra B, Fischer J, Rodríguez I, Eller C, Schroeter A, Helmuth R, Pfeifer Y. ESBL/AmpC/Carbapenemase-produzierende Enterobacteria beim Mensch Tieren und Lebensmitteln. (Talk). BfR Forum Verbraucherschutz. Berlin, Germany: Bundesinstitut für Risikobewertung; 2012a.
86. Guerra B, Fischer J, Rodríguez I, Eller C, Schroeter A, Helmuth R, Pfeifer Y. Molekulare Charakterisierung von ESBL/AmpC/Carbapenemase kodierenden Genen. (Talk). Verbraucherschutz in DART. Berlin, Germany: Bundesinstitut für Risikobewertung; 2012b.
87. Guerra B, Fischer J, Rodríguez I, Schmoger S, Helmuth R. Carbapenemases in *Enterobacteria* presence in animals, ESBL and plasmid mediated AmpC producing *Enterobacteriaceae* in poultry production and poultry meat in Scandinavia and the Baltic Sea area. (Talk). Uppsala, Sweden; 2012c.
88. Hering J, Friese A, Hille K, Merle R, Kreienbrock L. Prävalenz von ESBL-bildenden *E. coli* in landwirtschaftlichen Betrieben in Deutschland - Assoziation zum Management. (Talk). DACH-Epidemiologietagung 2012 / DVG-Fachgruppe Epidemiologie und Dokumentation. Neuruppin, Germany; 2012a.
89. Hering J, Merle R, Hille K, Kreienbrock L. Prävalenz von ESBL-bildenden *E. coli* in landwirtschaftlichen Betrieben in Deutschland – Status Quo der repräsentativen Erfassung. (Talk). Verbraucherschutz in DART: Forschungserkenntnisse und –perspektiven zu Antibiotikaresistenzen. Berlin, Germany: Bundesinstitut für Risikobewertung; 2012b.
90. Käsbohrer A. Derzeitige und künftige Aktivitäten zur Reduktion des Antibiotikaeinsatzes und Sicherung des Verbraucherschutzes - Ausblick aus Sicht des BfR. (Talk). Seminar Veterinär Public Health "Risikoorientierte Überwachung und Beratung - methodische und inhaltliche Strategien". Hannover, Germany; 2012a.
91. Käsbohrer A. Monitoring von Antibiotikaeinsatz zur Ableitung von Vermeidungsstrategien aus Sicht des gesundheitlichen Verbraucherschutzes. (Talk). Workshop Antibiotikaeinsatz "Antibiotikaeinsatz in der Tierhaltung - aktuelle Risiken und zukünftige Minimierungsstrategien". Bonn, Germany; 2012b.
92. Kietzmann M. Einfluss der Behandlungsbedingungen auf die Verteilung von antibakteriellen Wirkstoffen in die Umgebung und damit auf die Entwicklung bakterieller Resistenzen (Talk). BMELV-Symposium "Verbraucherschutz in DART: Forschungserkenntnisse und –perspektiven zu Antibiotikaresistenzen". Berlin, Germany: Bundesinstitut für Risikobewertung; 2012.
93. Kreienbrock L. RESET: Vorstellung des Verbundes. (Talk). BMELV-Symposium "Verbraucherschutz in DART: Forschungserkenntnisse und –perspektiven zu Antibiotikaresistenzen". Berlin, Germany: Bundesinstitut für Risikobewertung; 2012.
94. Laube H, Friese A, von Salvati C, Guerra-Roman B, Käsbohrer A, Kreienbrock L, Rösler U. Bestandskinetik und Emissionen von ESBL-bildenden *E. coli* in Geflügel- und Schweinemastbetrieben. (Talk). BMELV-Symposium "Verbraucherschutz in DART: Forschungserkenntnisse und -perspektiven zu Antibiotikaresistenzen". Berlin, Germany: BMELV; 2012a. 41–2 p.
95. Laube H, Friese A, von Salvati C, Guerra-Roman B, Käsbohrer A, Rösler U. Spread of ESBL-producing and fluorquinolone-resistant *Enterobacteriaceae* in and around chicken farms. (Talk). Tagung der Fachgruppe "Bakteriologie und Mykologie" der Deutschen Veterinärmedizinischen Gesellschaft. Leipzig, Germany; 2012b.

96. Laube H, von Salviati C, Guerra-Román B, Käsbohrer A, Kreienbrock L, Friese A, Rösler U. Fluorquinolone-resistant *Enterobacteriaceae* in and around chicken and swine farms. (Talk). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2012c. 194 p.
97. Leistner R. ESBL bildende *E.coli* im Krankenhaus. (Talk). Verbraucherschutz in DART: Forschungserkenntnisse und –perspektiven zu Antibiotikaresistenzen. Berlin, Germany: Bundesinstitut für Risikobewertung; 2012.
98. Merle R, Hering J, Friese A, Roesler U, Kreienbrock L. ESBL and quinolone resistant *Enterobacteriaceae* in livestock husbandry: a cross sectional study. (Talk). 13th International Symposium on Veterinary Epidemiology and Economics : ISVEE 13. Maastricht, The Netherlands: Wageningen Academic Publishers; 2012. 64 p.
99. Pfeifer Y. ESBL and (fluoro)quinolone resistance in *Enterobacteriaceae* - Das RESET-Projekt. (Talk). 4. Symposium der Bayerischen Landesarbeitsgemeinschaft Multiresistente Erreger (LARE). Munich, Germany; 2012a.
100. Pfeifer Y. Gram-negative Multidrug-Resistant Pathogens - Diagnostics and Molecular Epidemiology. (Talk). 30th World Congress of Biomedical Laboratory Science. Berlin, Germany; 2012b.
101. Pfeifer Y, Hentschke M, Valenza G, Klingebiel B, Polsfuß S, Jagnytsch O, Hahn G, Domurath B, Gerlach-Piontek H, Ziegler R, Winterfeld I, Mattner F. Emergence of Extended-Spectrum Beta-Lactamases (ESBL) and AmpC-Beta-Lactamases in *Proteus* spp. from Germany. (Talk). 64. Jahrestagung der Deutschen Gesellschaft für Hygiene und Mikrobiologie. Hamburg, Germany; 2012.
102. Scherz G, Stahl J, Kietzmann M. Bedeutung von Dosierung und Behandlungsdauer für die Entwicklung bakterieller Resistenzen gegen Enrofloxacin in Geflügel und Ceftiofur im Schwein. (Talk). Verbraucherschutz in DART: Forschungserkenntnisse und –perspektiven zu Antibiotikaresistenzen. Berlin, Germany: Bundesinstitut für Risikobewertung; 2012.
103. Schink A-K, Brenner Michael G, Kadlec K, Schwarz S. Resistente Bakterien bei Tieren: Entstehung und Ausbreitung. (Talk). Informationsveranstaltung des Landvolk-Kreisverbands Hannover zum Thema „Resistenzen und Nutztierhaltung: Wissenschaftliche Antworten aus dem RESET-Verbund“. Garbsen/Osterwald, Germany; 2012.
104. Schmid A, Messelhäußer U, Hörmansdorfer S, Käsbohrer A, Manfeld R. Nachweis von ESBL-*E. coli* und *Clostridium* spp. in Milchvieh- und Mastrinderbeständen. (Talk). 9. Berlin-Brandenburgischer Rindertag. Berlin, Germany; 2012.
105. Sharp H, Valentin L, Appel B, Käsbohrer A. Attributing human salmonellosis - A German approach towards source attribution. (Talk). 13th Conference of the International Society for Veterinary Epidemiology and Economics (ISVEE XIII). Maastricht, The Netherlands; 2012a.
106. Sharp H, Valentin L, Käsbohrer A. Wer ist schuld? Source Attribution für humane Salmonellosefälle in Deutschland. (Talk). BfR-Symposium "Zoonosen und Lebensmittelsicherheit". Berlin, Germany; 2012b.
107. von Salviati C, Laube H, Friese A, Rösler U. Long-term monitoring of ESBL-producing *E. coli* in animal farms and farm environment. (Talk). Nationales Symposium für Zoonosenforschung. Berlin, Germany; 2012. 192 p.

## 2011

108. Grote M, Chowdhury F, Sprenger C. Antibiotika-Kontamination verzehrstarker Gemüse durch Wirtschaftsdünger. (Talk). GDCh-Fortbildung: Fruchtsäfte, fruchtsafthaltige Getränke: Technologie, Untersuchung und Beurteilung. Paderborn, Germany; 2011.

109. Guerra B, Rodríguez I, Fischer J, Schroeter A, Helmuth R. Resistente Keime aus der Tierproduktion: Der Fall ESBLs/AmpC. (Talk). BfR Forum Verbraucherschutz, . Berlin, Germany: Bundesinstitut für Risikobewertung; 2011.
110. Hering j, Hille K, Merle R, Kreienbrock L. Antibiotikaverbrauch und antimikrobielle Resistenzen in landwirtschaftlichen Nutztieren. (Talk). DACH Epidemiologietagung "Moderne Epidemiologie - Quantitative Methoden in der Tierseuchenbekämpfung". Vienna, Austria; 2011.
111. Käsbohrer A. Antibiotika-Resistenzsituation und Antibiotika-Verbrauch in der Lebensmittelkette. (Talk). PEG Awareness Day. Berlin, Germany; 2011a.
112. Käsbohrer A. Wer ist schuld? Source Attribution Methoden - des Rätsels Lösung? (Talk). DACH Epidemiologietagung "Moderne Epidemiologie - Quantitative Methoden in der Tierseuchenbekämpfung". Vienna, Austria; 2011b.
113. Käsbohrer A, Schroeter A, Tenhagen B-A, Alt K, Stingl K, Guerra B, Helmuth R, Appel B. Aktuelle Beispiele zum Monitoring von antibiotikaresistenten Bakterien bei Tieren und Lebensmitteln. (Talk). Weltgesundheitstag. Berlin, Germany; 2011a.
114. Käsbohrer A, Schroeter A, Tenhagen B-A, Heckenbach K, Alt K, Guerra-Romàn B, Appel B. Emerging Antimicrobial resistance with public health relevance. (Talk). 6th International Conference on Emerging Zoonoses. Cancun, Mexico: Zoonoses and Public Health; 2011b. 158–65 p.
115. Käsbohrer A, Tenhagen B-A, Heckenbach K, Schroeter A, Alt K, Stingl K, Guerra B, Appel B. Verbesserung der Resistenzüberwachung von Zoonoseerregern und Kommensalen durch die AVV Zoonosen Lebensmittelkette. (Talk). Fortbildungsveranstaltung für den Öffentlichen Gesundheitsdienst (ÖGD). Berlin, Germany; 2011c.
116. Schwarz S, Kadlec K, Brenner Michael G, Feßler A, Schink A-K. Resistente Keime von Tieren: Verbreitung von Keimen oder Verbreitung von Resistenzgenen? (Talk). 10. BfR-Forum "Antibiotika-Resistenzen - Standortbestimmung und Perspektiven. Berlin, Germany; 2011.
